One of the most difficult decisions in any type of genealogy publishing is deciding when to stop researching the various family lines and when to publish your findings for others to be able to make use of. Having previously done several other books I can honestly advise that every possible family line has never been researched by every available avenue. This gets proven more readily with each passing year. New genealogy information becomes available with each passing day. It is now believed that Man's knowledge and available information doubles every eighteen months.

This book is published knowing that it is incomplete. I acknowledge that I have yet to research many of the various family branches in this book. A few years ago I wrote **Ancestors and Relatives of Reverdy Lewin Orrell, IV**, which detailed my son's complete ancestry. Some of his direct line ancestors were traced back thirteen generations. This current series of books doesn't go back in time; rather, they come forward. Each book begins with one of our son's 'end of the line' direct line ancestor and brings that ancestor's line to the present day. Therefore the reader will find our son, **Reverdy Lewin Orrell, IV** as a descendant in every book in this series. Obviously, his direct line from the progenitor in each book is very well documented. Some of the other descendancy lines from the progenitor have not been researched at all.

Why then, might you ask, is this series of books even being produced, if they are not completely researched and documented? The answer is quite simple - all of the family trees and branches, all of the genealogy data, all of the various source notes - do absolutely no good to anyone else when they are stored in my computer databases, census databases, and file cabinets. While it is my intention to eventually work on many of these lines again; I can't be sure that each project will ever be completed. Therefore, while I am young enough, in good health, and have the necessary funds, I am doing this series of fourteen books. There are several other family lines that are absolutely huge; some have been very well documented by other researchers. There are a few other lines that I will be publishing at a later date.

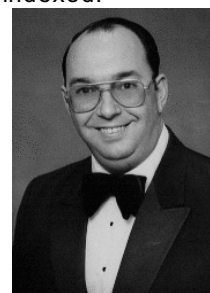

I do not consider myself an expert on any of these lines. Many persons helped me out by researching several of these lines before me. In all cases I have added to their research. Please note that the notes are not rewritten and polished. The books in this series are intended to aid and assist other genealogists who are interested in these various family lines.

Each book in this series is published on a very limited basis. A copy of each has been placed in the Library of Congress in Washington, D.C., Daughters of the American Revolution Library in Washington, D.C., Latter Day Saints (LDS) Family Library in Utah, the Maryland State Archives in Annapolis, Maryland, and the Maryland Historical Society in Baltimore, Maryland.

An index of each book appears in the back. Please bear in mind that only descendants, their spouses and their spouse's parents are indexed. Persons mentioned in the various notes are not indexed.

***The Descendants of Capt. Thomas Benson (Besson)***

Listing 2664 descendants for 16 generations.

Please note: It is known that Ann Besson, daughter of Capt. Thomas Besson, married Col. Nicholas Gassaway. It is believed that upon her death, Col. Gassaway then married her sister, Martha Besson. The Gassaway family has been completely documented in **Genealogical History of the Gassaway Family** by William Kenneth Rutherford and Anna Clay (Zimmerman) Rutherford. For that reason I have omitted that particular Gassaway information. Gassaway descendants (some of Col. Nicholas Gassaway) did marry into the Besson (Benson) lines; they have been included. Also much of the information herein came from the Benson (Besson) files of the Anne Arundel County Historical Society, information was also obtained from several books including **Cheney Family of the South, Founders of Howard and Anne Arundel County, Maryland, and Anne Arundel Gentry (3 vols)**. The reader is requested to refer to these works for additional information. It is believed that the name change from Besson to Benson came about the third generation.
